

# ATTENTION PATIENTS

RIGHT NOW, please sign the **"We the People"** petition to preserve access to prosthetic care at [www.SaveProsthetics.org](http://www.SaveProsthetics.org).

Medicare has proposed a new lower limb prosthetic policy that restricts coverage and would send amputees back to 1970's standards of care. This will eventually spread to the VA and all private payers, including yours. We need your help.

Please sign the petition and pass this request on to everyone you know through email, Facebook, and Twitter. Thank you.
